General information

Lamp types with letter **E** at the end are with elliptical bulb, with letter **T** at the end are with tubular bulb.

All lamps are manufactured in accordance with ISO 9001, IEC and CE norms and specifications.

Recommendad sales prices in Euro (EUR) per piece, without obligation.

Sales and delivery only according to valid ASTRALUX GMBH Terms & Conditions.

All lamps are made for usage in 230V current supply networks. Exceptions are marked.

Operating values and dimensions are valid with the usual slight deviations.

All data are subject to technical and formal changes without prior notice.

Foot notes

[1] Soft glass bulb - calleoscopic
[2] Hard glass bulb - borosilicate
[3] **SVLE** and **T Long Life** lamps are equiped with two burners for an extrem long lifetime
[4] **SVLE Internal Ignitor** lamps are equiped with an internal ignitor
[5] **SVLE** and **T Extra Lumen** lamps provide special high lumen output for best luminous performance
[6] **SVLE Exchange** lamps can be used in luminairs for mercury vapour lamps MVLE 150W, 250W u. 400W
[7] **MVLI** Blended light lamps are available in intermediate step voltages and with E26*/E39* caps
* E26 American Medium cap
* E39 American Mogul cap
